

How ~~Why~~ did the chicken cross the road?

Crossing the street is no joking matter. For the 20 seconds it'll take, pick your head up, put your phone down, wait for the sign, look both ways and pay attention to traffic. The other side isn't far away. Be sure you make it there.

**WALK SMART
ARRIVE ALIVE DE**

ohs.delaware.gov/pedestrian.shtml

WALK THIS WAY:

- Cross only at crosswalks or intersections that have signals or traffic signs.
- When walking at night, carry a flashlight or reflective items.
- Use sidewalks. If there isn't one, walk facing traffic as far off the edge of the road as possible.
- Even though you have the right of way, don't step into a crosswalk when a car is approaching.
